

retail ORGANISATIONS

giving you the tools to protect your staff, stock and
STORE

All retail businesses, whether large or small, can benefit from Access Portal to secure their premises. Most retailers store stock in the building and, in the cases of high value businesses like jewellers, this could amount to millions.

SOME BENEFITS OF ACCESS PORTAL THAT MAY BE IMPLEMENTED

- Keep track of where merchandisers are located
- Prevent shoppers from entering restricted areas
- Keep track of employees hours
- Monitor which areas employees enter, and when
- Restrict access to storerooms to specific employees
- Create specific events, such as scheduling of opening and closing of doors
- Remote enrolment of contract employees, and termination of access permissions
- Integration with CCTV and intrusion systems
- Enabled controlled access to receiving bays to manage goods delivery prior to store openings
- Scheduled tours for security guards or maintenance teams
- Managing permanent staff parking
